# Our Specialty

For over forty years, while in the employment of the T. S. Hubbard Company, I have made the growing of high grade Grape Vines a specialty. Now as successor to the T. S. Hubbard Company my aim is to keep up the company's standard, which can truthfully be called the Chautauqua Standard. For sixty-three years the T. S. Hubbard Company established an immense business and wide reputation for accuracy in varieties, grading to the highest standard, and promptness in filling orders, and it is my supreme aim to uphold their standards in every respect.

LOCATION—Three miles south of Dunkirk, forty miles west of Buffalo, on the New York Central Lines, Erie Railroad, Penn. R. R., Nickle Plate, and several trucking companies.

PACKING done in the most thorough manner.

TIME OF SHIPMENT—October 1 to June 1. Our stock being stored in cellars, can be safely sent by mail or express during winter, or by freight, with special care in packing.

WE NEVER SUBSTITUTE, but we reserve the right to fill orders for one-year vines with older vines of the same size, unless instructed to the contrary, and for two-year vines with extra large one-year of the same size as the two-year.

## **SPECIAL NOTICE**

There are several new varieties of grapes which have been propagated at the New York State Grape Experiment Station. These varieties have been introduced during the past few years, so their descriptions do not appear in the usual description books. Among these are Brocton, Fredonia, Ontario, Portland, Sheridan, Urbana, and Westfield. I will gladly send descriptions of any of these varieties upon application. I will also be pleased to keep you posted on any noteworthy new varieties which may be introduced in the future.
